

Cementex is a closely-held corporation recognized throughout the industry as the only double-insulated hand tool manufacturer that controls the entire manufacturing process from insulation through testing with an unparalleled commitment to quality and delivery. Our design-driven company produces innovative tools while remaining committed to being a low-cost manufacturer. The tools are our core business, not an add-on or up-sell; we are the safety tool specialists.

Since 1950, Cementex has defined its core competence in insulated safety hand tools. During the last decade, the company has experienced significant changes in expanding its product offering through a combination of individual technologies and production skills. The growth is a result of being a customer-driver company.

Cementex prides itself on innovation and the ability to deliver custom solutions to our customers. We are always on the cutting edge of engineering insulated tools, such as designing and manufacturing the only 1000V rated fully insulated adjustable wrench.

Headquartered in Burlington, NJ and recognized as the industry leader, Cementex wants to be your zero-fault supplier of choice for insulated hand tools and associated safety products. To purchase items from our complete line of safety tools and products, please contact your local Cementex distributor. To become one of our valued distributors, please contact your local Sales Representative.

Cementex guarantees the mechanical parts of the tools for life, provided they are used for the purpose for which they are intended. Cementex insulation is guaranteed to be free from defects in material and workmanship for a period of two (2) years from the date of the original shipments. Torque tools will be warrantied so long as they maintain their required annual calibrations.

We have been waving the American flag at Cementex since our inception. We believe in utilizing quality American products whenever and wherever possible. There are some products no longer manufactured in the USA based on mergers and acquisitions in the raw tool material space and this requires us to globally source some quality components in order to offer the widest depth and breadth of quality, American labor-built ASTM F1505 voltage rated hand tools.

- Cementex double-insulated tools comply with ASTM F1505 and IEC 60900 Standards and help meet the requirements of OSHA 1910.331-335, NFPA 70E®, and CSA-Z462
- Cementex double-insulated tools are tested to 10,000 VAC and Rated for 1,000 VAC or 1,500 VDC when working on or around energized parts
